

WEBSITES & ONLINE PRESENCE FOR LOCAL
BUSINESS

Your next customer is searching right now.

I build local businesses a website and online presence that turns "near me" searches into phone calls — without the agency price tag or the tech headache.

WHERE YOU SHOW UP

**From invisible
to impossible
to miss.**

Most people find a local service with a quick search — and they call one of the first names they see. If that isn't you, it's your competitor.

WHAT I DO

Three ways I get you found — and hired.

A website that works

A clean, fast, mobile-friendly site that makes you look established and tells people exactly how to hire you.

Get found on Google

I set up and sharpen your Google Business Profile and local listings so you show up on the map for "near me" searches.

Never miss a lead

Simple automatic text-back and follow-up so every call and form turns into a real conversation — even when you're on a job.

HOW IT WORKS

Simple, start to finish.

01 — FREE REVIEW

We talk for 15 minutes

I look at how you show up online today and show you exactly where customers are slipping away.

02 — I BUILD IT

Done for you

Website, Google profile, lead follow-up — built for you at a fixed price. No jargon, no surprises.

03 — YOU GET FOUND

The phone rings

You start showing up when people search nearby, and inquiries stop falling through the cracks.

Why work with me

- Local, and I speak plainly — no agency jargon.
- One person who answers the phone, not a call center.
- Modern AI-powered tools mean faster work and a lower price.
- You focus on the work; I handle the online side.

Let's get you on the map.

I'm taking on a few founding clients now at a reduced rate. Grab a free 15-minute review and see what's possible.
